FISCAL COURT

Holds an Interesting Meeting in Squire
 Fred W. Bauer's Office—New
 Bridge to Be Built Over
 North Fork.

A meeting of the Mason County Fiscal Court was held Saturday afternoon in Squire Fred W. Bauer's office for the purpose of letting bids for the Lowell Bridge over the North Fork.

It is decided to have a state inspector to be present all of the time during the building of the bridge. This inspector will be paid three dollars per day by the county but he will have to be there each day work goes on.

The bids were then opened. The following were the bidders: Farrow & Co., A. E. Rankin, Augusta; E. K. Newell, Louisville; Louie Bauer.

A committee was then appointed to figure out the bids and to determine the lowest bidder. The amount of each of the bids were as follows:

Farrow & Co., \$3,124.75.
 A. E. Rankin, Augusta, \$3,000.25.
 E. K. Newell, \$2,389.70.
 Louie Bauer, \$3,241.35.

On motion Mr. E. K. Newell was awarded the contract and the County Attorney authorized to enter into an agreement with Mr. Newell.

The meeting adjourned.

\$25,000,000 LOSS

When a Large Shipment of Ammunition Consigned to the Allied Nations Exploded—At Least Two Persons Killed and a Score Injured.

New York, July 30—Property loss estimated at \$25,000,000 was caused early today by a series of terrific explosions of ammunition awaiting shipment to the Entente Allies and stored on Black Tom Island, a small strip of land jutting into New York Bay off Jersey City. The loss of life still was not determined tonight. It will not be determined definitely until there has been opportunity to check up the workmen employed on the island and on boats moored nearby.

Two are known to be dead and at least two more are missing. Scores of persons were injured, some of them probably mortally.

The detonations, which were felt in five states, began with a continuous rapid fire of small shells, then the blowing up of great quantities of dynamite, and other high explosives, followed by the bursting of thousands of shrapnel shells which literally showered the surrounding country and waters for many miles around.

Fire that started soon after the first great crash, which spread death and desolation in its wake, destroyed thirteen of the huge warehouses of the National Storage Company on Black Tom Island in which were stored merchant dyes valued at between \$12,000,000 and \$15,000,000. The flames shooting into the clouds were reflected against New York's skyline of towering office buildings, which only a few minutes before were shaken to their foundations as if by an earthquake. Miles of streets in Manhattan alone were strewn with broken glass and shattered signs.

FALLS THIRTY FEET

Albert, the twelve year old son of Dr. J. A. Simpson of Forest avenue, suffered a severe accident yesterday morning when he fell from the L. & N. bridge between the depot and Forest avenue.

The boy was returning from Sunday School and was walking on the outer edge of the bridge. A cinder dropped from a train in his path and he attempted to kick it off the bridge. As he kicked his foot slipped and he fell off the bridge.

The bridge at the point where young Simpson fell off is about thirty feet from the ground and the fall must have been terrific. Some of his companions with him went for aid and he was taken to his home. Drs. Taylor and Quigley were summoned but investigation proved that he was not hurt seriously. At first it was thought he was injured internally but no evidence has been shown to prove this. No bones were broken but his lower limbs were badly bruised. Several minor cuts were sustained but bruises were the chief injuries. He is reported as somewhat improved this morning although still badly shaken by the fall.

MAN 60, TAKES BRIDE 16

Paris, Ky., July 30—The Marriage of Preston S. See, 60 years old, and Miss Minnie Hines, 16 years old, was solemnized here yesterday. After the ceremony the couple left for Cincinnati for a bridal trip. The bridegroom is an employee of the L. & N. freight depot here. The bride is a daughter of John Hines on Stoner avenue.

See is known to quite a number of Maysville people, having been in the freight office at Paris for some time.

BRICK WILL ARRIVE THIS WEEK

The brick for the down town streets have been shipped by the Carlisle Brick Co. from their kiln in Portsmouth. The shipment will take seventy cars. They were expected to arrive last night but did not show up. It is thought that they were held up at Russell, Ky., on account of the congestion of traffic there. They will probably be in tomorrow.

AIR HOSE BREAKS

An air hose on one of the coaches of West bound fast train No. 3, which arrives here at 3:30 p. m., broke Saturday afternoon as the train was passing Limestone street. The train was stopped on the bridge between Market and Limestone for about ten minutes and many thought that an accident had occurred. It was fixed by the train crew.

NEGRO BOY INJURED

At an early hour this morning a small colored boy was run over by a truck near the C. & O. depot in the West End of town. As we did not hear of the accident until some time a full account will be given tomorrow.

IN FAR-OFF TURKEY

Man From Maysville Directing This Country's Affairs in the Land of the Crescent.

Just now it takes mail a long time to get through from one side of the earth to the other.

On March 29th, C. E. Allen, the American Consul General at Constantinople, Turkey, mailed a postal card to a friend in Maysville, and on July 29th it was delivered at his home here. Just four months to the day making the trip.

As Mr. Allen is a man from Maysville, holding the responsible government position he does, it makes a message from him doubly interesting. He had been at Adriaople for six months prior to the sending of the card, and he had been having a regular Fourth of July time—fireworks in abundance and great halls of trouble to untangle.

Mr. Allen is a son of Mr. Bruce Allen, who for years was superintendent of pumps on the Cincinnati Division of the C. & O. and who resided on West Second street here. The young Consul General is a graduate of the Maysville High School and a bright and intelligent man who is holding down his position to the satisfaction of the officials at Washington; but, as he is a product of Maysville, what else could be expected of him? He is well and didn't say when he expected to return to the United States, as he must be constantly on the job.

Charming Mid-Summer Dresses

A summer dress may be either positive or negative. There is no use spending money for a dress the style of which is more or less neutral—or negative. Why not have yours a positive affirmation of the present season's modes? I need not necessarily shout it down-to-the-minuteness—there is a quiet but none the less emphatic manner of expressing the style just as there is a blatant and ultra manner. The lingerie dresses we have reduced are of the very minute in style; beautiful workmanship; fine materials and are now
